

*SWITCH SOCKET*  
**NEW**

---

**GLOBAL SWITCH & SOCKET**  
PROFESSIONAL MANUFACTURER

It has always been our relentless pursuit of "a world brand, the industry for the first" business philosophy, ultra-large-scale manufacturing capacity. For the development of the enterprise, we believe the superior quality is manufactured. Since production began from that day, selection of raw materials, process Designated, the choice of production equipment, can now raise the spirit of enterprise. For us, even to a small title, a label, Do not let the wrong living to the next link. All production staff, obsessed customers to obtain products stand the test of time, Make higher-value products.

## *Company Profile*

The Company is a new-type architectural electrical enterprise engaging in R & D, production and sales. We specialize in production of low-voltage electrical products including medium and high grade wall switches, sockets, plugs, circuit breakers and lighting equipment, devote ourselves to build a most popular professional architectural electrical manufacturer, and provide customers the best comprehensive solutions of architectural electrical products.

Our company is located in Wenzhou, a city of low-voltage electrical equipment. Advanced automatic equipment and our professional experience in the architectural electrical field enable our products to keep strong vitality. Among them, high-precision injection molding machines with Taiwan technologies are characterized by advanced mold technologies, and have realize automatic drawing material and automatic demolding. Meanwhile, we adopt automatic equipment and technologies like silver contact riveting machines and auto-screwdriving machines so as to guarantee product quality, employee safety and process stability.

Today, The Company products are exported to Europe, America and the Middle East. Our professional marketing & technological service teams and perfect technological service network make us to response to customers' requirements rapidly so we can relieve customers' worries better.

We have experienced and vibrant management teams, outstanding research personnel, professional and effective technological support and first-rate production management. We cooperate with top Italian design teams so we are capable of developing and designing products that meet general international standards like American, British and European standards.

The Company has strict quality standards for material- incoming inspection, plastic parts inspection, process inspection (glowing filament testing), sliver layer thickness inspection, performance life testing, plastic ball pressure testing, switch&socket on-off testing of assembly line, and doorbell testing. We have established a scientific, comprehensive, and complete quality control system from raw materials to finished products. We have obtained the certification of ISO9001:2000 International Quality System. Our products have got CB and CE certifications issued by BV and Intertek.

We respect our employees and customers. We offer opportunities to employees to develop their careers and enjoy their life, and help customers create values and develop business. We believe that the culture of home will bring respect not only for ourselves but also for customers.

When the eye is at rest, it can focus on the essential features of things. as if the series focused on Austere pragmatism, combined with specific colors in harmony with modern architectural design, its tough and simple design. The clear and independent personality is particularly captivating, and the matte black and matte white are visually and tactilely shocking, making people feel deep impression.

# *N6 series*

When the eye is at rest, it can focus on the essential features of things, as if the series focused on Austere pragmatism, combined with specific colors in harmony with modern architectural design, its tough and simple design.

The clear and independent personality is particularly captivating, and the matte black and matte white are visually and tactilely shocking, making people feel deep impression.

# *118 series*

When the eye is at rest, it can focus on the essential features of things. as if the series focused on Austere pragmatism, combined with specific colors in harmony with modern architectural design, its tough and simple design. The clear and independent personality is particularly captivating, and the matte black and matte white are visually and tactilely shocking, making people feel deep impression.

# 118 series

**118Z-01**
